SUMMARY

I own and operate a Houston dealership and ship the CRM, voice AI, and automation systems that run it. I have personally closed 53 vehicle sales and collected \$206,777 in sale proceeds since June 2025, while building production tools that connect lead intake, calls, scheduling, CRM records and follow-up.

EDUCATION

The University of Texas at Austin
Bachelor of Science, Neuroscience

AUSTIN, TX
EXPECTED 2028

San Jacinto College
Associate of Arts, Business
GPA 3.63 | Dean's Honor List

HOUSTON, TX
MAY 2026

Google AI Essentials, Google (Coursera)

2026

EXPERIENCE

Owner and Operations Lead
Triple J Auto Investment and Rental Operations (thetripjauto.com)

HOUSTON, TX
AUG 2024 TO PRESENT

- Manage dealership operations across pricing, inventory, vendors, logistics, financing, and title processing; personally closed 53 vehicle sales and collected \$206,777 in sale proceeds since June 2025.

SELECTED IMPLEMENTATIONS: TRIPLE J AUTO

Custom Dealership CRM (Handle a Sale) TypeScript, React/Next.js, SQL (PostgreSQL), Supabase, Vercel, Edge Functions

- Designed the lead-to-title data model, roles, and validation; tested Supabase RLS policies to prevent unauthorized role access; added validation that prevents invalid deal and inventory records from being written.
- Executed production schema migrations while preserving existing records and operational tables; shipped the app on Vercel with Edge Functions for voice and texting webhooks.
- Used daily by three staff across inventory, deals, and follow-up.

Voice AI Inbound Retell AI, Bland AI, Twilio, CRM webhooks

- Deployed inbound voice AI that books appointments into the CRM and live-transfers unresolved calls to staff.
- Across August and September 2026, averaged 41 inbound calls, 14 booked appointments, and 4 CRM-matched vehicle sales per month (\$15,000 a month in sale proceeds).

Prospecting Workflow Automation Python, Claude API, n8n, CRM webhooks

- Built a Python workflow using the Claude API to research Facebook Marketplace leads, write findings to the CRM, and generate SOP-based reply text for automatic follow-up.

SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Backend: Edge Functions, REST APIs, RLS, webhook services

AI development: Claude Code, Claude API, Codex

Web and data: React, Next.js, PostgreSQL, Supabase, Vercel

Automation: n8n, API integrations, Retell AI, Bland AI, Twilio

Operations: Dealership operations, sales pipelines, inventory and vendor management
