

Jason Obawemimo

AI Implementation, Workflow Automation and CRM Systems

A TypeScript, Next.js and Supabase CRM in daily production use.

Written for: Junior Full-Stack Developer, Software Engineer I, Web Developer, Internal Tools Developer, CRM Developer

Pearland, TX | jobawems@gmail.com | jasonobawemimo.com | linkedin.com/in/obawemimo

Summary

I build software people use every day. I designed and shipped a custom dealership CRM in TypeScript, React, Next.js, PostgreSQL and Supabase that three staff use daily across inventory, deals and follow-up. I designed its lead-to-title data model, roles and validation, tested its row-level security (RLS) policies to prevent unauthorized role access, and executed production schema migrations that preserved existing records.

Experience

Owner and Operations Lead

Aug 2024 to Present

Triple J Auto Investment and Rental Operations, Houston, Texas

Custom dealership CRM and Handle a Sale desk (TypeScript, React, Next.js, PostgreSQL, Supabase, Vercel, Edge Functions)

- Designed the lead-to-title data model, roles and validation.
- Used daily by three staff across inventory, deals and follow-up.
- Tested Supabase row-level security (RLS) policies to prevent unauthorized role access.
- Executed production schema migrations while preserving existing records and operational tables.
- Added validation that prevents invalid deal and inventory records from being written.
- Shipped the CRM on Vercel with Edge Functions for voice and texting webhooks.
- Handle a Sale, the CRM's sale desk, scans the buyer's license once so every form fills itself and routes each deal to the right documents with nothing missing and nothing extra.

Prospecting workflow (Python, Claude API, n8n, CRM webhooks)

- Built a prospecting workflow in Python with the Claude API and n8n that researches Facebook Marketplace leads and writes findings to the CRM.

Education

The University of Texas at Austin, Austin, TX

Expected 2028

Bachelor of Science in Neuroscience

San Jacinto College, Houston, TX

May 2026

Associate of Arts in Business, GPA 3.63, Dean's Honor List

Certificates and Courses

- Google AI Essentials, Google (Coursera), 2026
- Anthropic: nineteen completed courses, including Claude Code in Action; Building with the Claude API; Model Context Protocol: Advanced Topics

Skills

Languages: TypeScript, JavaScript, Python, SQL

Web and data: React, Next.js, PostgreSQL, Supabase, Vercel

Backend: Edge Functions, REST APIs, row-level security (RLS), webhook services

AI development: Claude Code, Claude API, Codex

Automation: n8n, API integrations, Retell AI, Bland AI, Twilio

Operations: Dealership operations, sales pipelines, inventory and vendor management
