

Jason Obawemimo

AI Implementation, Workflow Automation and CRM Systems

Microsoft 365, Google Workspace, accounts, hardware, network and the CRM.

Written for: IT Support Specialist, IT Technician, Help Desk Technician, Technical Support Specialist, IT Coordinator

Pearland, TX | jobawems@gmail.com | jasonobawemimo.com | linkedin.com/in/obawemimo

Open to full-time, part-time and contract roles, remote or on site in Houston.

Summary

I keep a business's people and systems working. At a Houston used vehicle dealership I support the staff on the CRM, phones and computers, manage user accounts and permissions, and set up the hardware and network. I administer Microsoft 365 and Google Workspace, and I built the CRM the staff work in, with row-level security (RLS) policies tested to prevent unauthorized role access and production schema migrations that preserved existing records.

Experience

Owner and Operations Lead

Aug 2024 to Present

Triple J Auto Investment and Rental Operations, Houston, Texas

- Support the dealership's staff on the CRM, phones and computers.
- Administer Microsoft 365 and Google Workspace.
- Set up the dealership's hardware and network.
- Manage the dealership's user accounts and permissions.
- Build AI software for the dealership's bottlenecks rather than buying software.

Custom dealership CRM and Handle a Sale desk (TypeScript, React, Next.js, PostgreSQL, Supabase, Vercel, Edge Functions)

- Tested Supabase row-level security (RLS) policies to prevent unauthorized role access.
- Used daily by three staff across inventory, deals and follow-up.
- Executed production schema migrations while preserving existing records and operational tables.
- Shipped the CRM on Vercel with Edge Functions for voice and texting webhooks.

Education

The University of Texas at Austin, Austin, TX
