

Jason Obawemimo

AI Implementation, Workflow Automation and CRM Systems

The data model, validation and migrations behind a live CRM.

Written for: Data Coordinator, Data Operations Specialist, Database Specialist, Junior Database Administrator, SQL Developer

Pearland, TX | jobawems@gmail.com | jasonobawemimo.com | linkedin.com/in/obawemimo

Open to full-time, part-time and contract roles, remote or on site in Houston.

Summary

I keep a business's data structured, clean and intact. For a Houston used vehicle dealership I designed the lead-to-title data model and roles of the CRM three staff use daily, added validation that prevents invalid deal and inventory records from being written, tested its row-level security (RLS) policies to prevent unauthorized role access, and executed production schema migrations that preserved existing records. I work in SQL, PostgreSQL, Python, Excel and Google Sheets.

Experience

Owner and Operations Lead

Aug 2024 to Present

Triple J Auto Investment and Rental Operations, Houston, Texas

Custom dealership CRM and Handle a Sale desk (TypeScript, React, Next.js, PostgreSQL, Supabase, Vercel, Edge Functions)

- Designed the lead-to-title data model, roles and validation.
- Added validation that prevents invalid deal and inventory records from being written.
- Executed production schema migrations while preserving existing records and operational tables.
- Tested Supabase row-level security (RLS) policies to prevent unauthorized role access.
- Used daily by three staff across inventory, deals and follow-up.

Prospecting workflow (Python, Claude API, n8n, CRM webhooks)

- Built a prospecting workflow in Python with the Claude API and n8n that researches Facebook Marketplace leads and writes findings to the CRM.

Education

The University of Texas at Austin, Austin, TX

Expected 2028

Bachelor of Science in Neuroscience

San Jacinto College, Houston, TX

May 2026

Associate of Arts in Business, GPA 3.63, Dean's Honor List

Certificates and Courses

- Google AI Essentials, Google (Coursera), 2026
- Anthropic: nineteen completed courses, including Building with the Claude API; Claude Code in Action; AI Capabilities and Limitations

Skills

Web and data: React, Next.js, PostgreSQL, Supabase, Vercel

Languages: TypeScript, JavaScript, Python, SQL

Tools: Git and GitHub; Excel and Google Sheets; Microsoft 365 and Google Workspace administration

Backend: Edge Functions, REST APIs, row-level security (RLS), webhook services

Automation: n8n, API integrations, Retell AI, Bland AI, Twilio

AI development: Claude Code, Claude API, Codex

Operations: Dealership operations, sales pipelines, inventory and vendor management

Spoken languages: Spanish, spoken professionally and proficiently
